Pompano Beach, Florida 33064

February 24, 2010

Pete & Karen:

I could not be more pleased with the final product or quality of service that I have received from Krystal Glass Company.

I was referred to Pete last year because he was known to be reasonable. Once I went to visit his company directly, I found out that Pete was not only reasonable but he is also a very talented artist with creating all types of fantastic images with etched glass.

I initially came to Pete to get clear glass tabletops & shelves sandblasted green to match other green glass furnishings. When I left that first visit at Krystal Glass Company, I knew that I would return to do more business with real nice people.

Recently, Pete etched a new dining room tabletop with three dolphins for me. Pete took the initial design idea from a bronze statue and improvised that design to an etched glass tabletop. The finished etched glass artwork of the three dolphins at play looks so good I do not want to put anything over the tabletop. My dining tabletop is now custom art by Pete Jurgens, an original, one of a kind.

Pete also installed frameless glass shower walls in an opaque silken green glass that provides more privacy for my master bathroom and at a second property of mine that looks just great, too.

I have taken full advantage of all type of glass services that Pete Jurgens provides at the Krystal Glass Company and I am completely satisfied and have been since day one.

I have worked with many South Florida home improvement vendors and have thrown a few out in the middle of the job. It's so nice to find honest, reliable people like Pete and his wife Karen that provide top quality work.

I would recommend the services of Krystal Glass Company, any and every day.

Sincerely,

Douglas C. Smith
